"THE CAT CAME BACK!"

Return of Market Street Celestial From the Windy City

What has become of Henry Woo, the Celestial Market street faundryman? He disappeared terday, and everything was found in apple-pie of a lot in Lexington costing \$8,030, on which last Monday week, telling his neighbors that he was not feeling well and that he was going to Chicago to consult a physician of his own race.

He removed his sign from across the pavement and placed a placard in his door window stating that he "would be back promptly."

He left everything intact in his establishment, as well as laundry belonging to his customers, indicating that he did not intend to remain long away. His business was not as prosperous as he would have had it, and it is barely possible that he became discouraged and has vamosed the ranch for good; then again such a thing might be that some harm has befallen him in the Windy City.

Lee Kwong led a strenuous and eventful life while located in Market street, and now that Woo has disappeared, it looks as though the place is a hodoo for the almoned-eyed gentle-

About Rheumatism.

There are few diseases that inflict more torture than rheumatism, and there is probably no disease for which such a varied and useless lot of reme dies have been suggested. To say that it can b cured is, therefore, a bold statement to make, bu Chamberlain's Pain Balm, which enjoys an ex tensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by it use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? With a single ship landing 3,086 foreigners in New York, the Democrats ought to win the next election in a walk.

Well, by gum! Pokey old Philadelphia was, for a day at least, the top rail in both the big League Baseball Clubs.

GOVERNOR VARDAMAN of Mississippi, speak. ing of President ROOSEVELT, says "I should like to be friends with him;" but TEDDY doubtless will act on the advice of the philosopher who proclaimed, "Save me from my friends."

THE Livingston Democrat says the next meeting of the Democratic State Central Committee will be held in the Lexington Jail, provided a full membership attends. Whether this be so or not, it is a fact that the Chairman of that Committee has for some time been holding conferences there with the member from the Tenth District.

THE LEDGER hasn't space to give details of the Hargis-Callahan trials at Lexington; but here's part of what Mose Feltner, one of the state's witnesses, had to say, as reported in The Courier-Journal-

"FELTNER said that on the night in question he and JOHN ABNER and JOHN SMITH left the boarding-house of Louis Hays to go to the Hargis store for the conference. They arrived at the store somewhat early, as the lights were still burning, and they proceeded to the Postoffice, where they remained for a few minutes, and then went into the store and up stairs to the office. When asked why he and the others had not entered the store while the lights were burning, FELTNER said it had been agreed before that neither he nor any of the others should enter

the store while the clerks were on duty, but to wait until the lights had been extinguished, which would be the signal that all of the clerks had gone home. He said this had been agreed on at the conference held the night before, when only the killing of MARCUM was discussed. TOM WHITE was present at that conference.

"Witness said there were a number of guns, rifles and pistols in Hargis's office and that he and ABNER and most serious things accompanying constipation. SMITH had taken several of the guns to their rooms at Hays's boarding house, where they would be when needed. Witness said that during this conference and while he, JIM HARGIS, ED. CALLAHAN and ABNER and SMITH were in the room ALEX, HARGIS came in and asked what had strengthening the digestive organs, enabling been done. CALLAHAN told ALEX, HARGIS nothing had been agreed upon at that time. Witness said only the killing of MARCUM had been discussed up to the time ALEX. HARGIS entered the room. ALEX. HARGIS proposed that JIM COCKRILL be killed first, and that MARCUM would become scared and leave the country and would not have to be killed. JIM HARGIS would not agree to this, and insisted that MARCUM be killed and that COCKRILL could be killed later. Witness said CALLAHAN agreed to this plan, and said that MARCUM should be killed first, as he was the Attorney against him in the Court of Appeals in a case which involved about \$40,000, and that the case would come up within a few days from that time and urged that MARCUM'S death be agreed upon by all parties. Witness said that during this conference ALEX. HARGIS said that with JIM COCKRILL dead it would be an easy matter to hang Tom Cockrill, who was then in Jail for the murder of BEN HARGIS, but that it would be impossible to hang Tom Cockrill if Jim Cockrill should be present at the trial."

It should be remembered that James Hargis is County Judge of Breathitt and is a member of the Democratic State Central Committee; that ED. CALLAHAN is the Democratic Sheriff of Breathitt county; that ALEX. HARGIS was the Democratic Senator from that District—and that James B. Marcum was a Republican Attorney. The Ledger doesn't charge the Democratic party with responsibility for the many murders in Breathitt, but it looks like the Democrats have poor grounds for calling the Republican party the party of assassination on account of a single murder at Frankfort.

Awful Suffering of Little Boy from an Itching Humour

CURED BY CUTICURA

Not One Square Inch of Skin on His Whole Body Unaffected

"My little son, a boy of five, broke out with an itching rash. Three doctors prescribed for him, but he kept getting worse until we could not dress him any more. They finally advised me to try a certain medical college, but its treatment did no good. At the time I was induced to try Cuticura he was so bad that I had to cut his hair off and put the Cuticura Oint-ment on him on bandages, as it was impossible to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to his skin and in removing them it used to take the skin off with them, and the screams from the poor child were heart-breaking. I began to think that he would never get well, but after the second application of Cuticura Ointment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it finally yielded to the treatment. Now I can say that he is entirely cured, and a stronger and healthier boy you never saw than he is to-day." ROBERT WATTAM, 4922 Center Ave., Chicago, Ill., Dec. 30, 1897.

SIX YEARS LATER Mr. Wattam writes

"Your letter of the 21st in regard to the case of my little boy at hand. I am truly thankful to say that the cure effected by the Cuticura Remedies has been a most thorough and successful cure to date." Chicago, Feb. 23, 1903. Sold throughout the world. On the crest of a rise in the Monongahela river, which swelled the Ohio to a coal-shipping stage, Easter Sunday was a busy day for those interested in rivers, nearly 6,000,000 bushels of coal getting away from Pittsburgh for Southern points. The Monongahela River Consolidated Coal and Coke Company and other river coal concerns had every available boat in the harbor ready for action. At daybreak the movement toward the South began, and as fast as possible fleets were locked through Davis Island Dam. Not an accident was reported, and when the total was made 150 boats, each holding 25,000 bushels; 101 barges, each with a capacity of 15,000 bushels, and forty flats, each holding 10,000 bushels of coal, making a total of 5,665,000 bushels of coal, had been started South. It was one of the largest shipments ever made without an accident. While the barges and flats will be dropped off between Pittsburgh and Cincinnati, Louisville and New Orleans will be the destination of the boats. There is still considerable coal in the Pittsburgh harbor, and it is estimated that if the present stage of water remains, the small towboats left in the harbor will be able to get away with at least 3,000,000 bushels of coal.

SPECIAL CUT PRICES ON CANNED GOODS continues. Keep the old list by it. In addition I have just gotten a lot of Damson Plums in three-pound cans; very fine; as long as they last they go at 3 cans for 25c. At the price they are dirt cheap. A few barrels of Fancy New Crop Molasses left; as long as they last they go at 45c. Every one who has bought my fine Blended Coffees is more than pleased. They still go at 15c. 20c and 25c; no money for me at that, but a snap for vou. My stock of Green Coffees and Fine Teas is always full and up-to-date. And when it comes to flour, Perfection has no competitor. Every barrel guaranteed to be just as recommended. Try a package of Saxon Wheat Food, or a package of Dr. Price's Celery Food or Hominy Grits, all very fine. A full supply of Apples, Oranges, Bananas and Lemons at all times. A few barrels only of very fine Greenup County Sorghum left; price as long as they last 40c. Come right along and get the worth of your money in goods, new, fresh and clean and always the best.

Long Search Rewarded

BODY OF JOHN PAUL JONES

Found in Paris After a Search Covering Several Years

Father of American Navy Will Rest in Beautiful Arlington

PARIS. April 14.-The remarkable search which Ambassador Porter has conducted for the body of Paul Jones has been crowned with success by the discovery of the body and its identification by the highest French medical experts as unquestionably that of the famous American Admiral who founded the American

IN A GOOD STATE OF PRESERVATION. Ambassador Porter cabled to Washington announcing the successful results of his long and difficult search. The body is in a good state of preservation, considering that the interment took place over one hundred years ago. SEARCH OF FIVE YEARS.

The circumstances leading to the final discovery of the body are particularly interesting. General Porter has conducted the search for the last five years, and when Congress recently took no action on the President's recommendation for the expenses incident to the search the Ambassador continued the extensive labors at his own expense. A large force of workmen has been engaged night and day tunneling and cross-tunneling the old St. Louis Cemetery. This constituted a huge operation, embracing quiring a system of subterranean mining.

WAS IMMERSED IN ALCOHOL.

Hundreds of wooden caskets were found, but not until Wednesday were unearthed four leaden caskets which gave promise of containing the neck. the body of the Admiral. Three of them bore name-plates designating the names of the deceased. The fourth showed superior solidity of workmanship. No plate was found on this casket, and it is supposed it was removed when another coffin was superimposed on it. The leaden coffin was opened in the presence of General Porter, Colonel Baily-Blanchard, the Second Secretary of the American Embassy, and Engineer Weis, who has been directing the excavations. The body was found to be well preserved owing to its being immersed in alcohol. It was wrapped in a sheet with a packing of straw and hay. Those present were immediately struck by the resemblance of the head to that on the medallions and busts of the Admiral.

NO DECORATIONS FOUND.

As was anticipated, no uniform, decoration or sword was found, as all such articles had been ccounted for after the burial.

The coffin is shaped like a mummy coffin, which was common at that period, widening from the foot to the shoulders, with a round top fitting over the head.

The coffin was taken to the medical school, where Drs. Capitan and Papillaut, distinguished Professors of the School of Anthropology, and ecognized authorities on such investigations, were charged with making a thorough examination for the purpose of identification. To facilitate this the Ambassador furnished them with portraits and medallions, two busts by Houdil, and authentic descriptions of the color of mystery. the Admiral's hair and the height and measurement of his body. After the most minute examination, the following facts were fully sub-

Size and shape of the head agree with several peculiarities identical with the head of the

Hair, dark brown, the same as the Admiral's: in places slightly gray, indicating a person of his age, forty-five years. The hair is long, reaching below the shoulders, and is combed back and gathered in a clasp at the back of

The face is clean shaven, corresponding exactly with the descriptions, portraits and busts of the Admiral.

The linen is in good condition. One article bears an initial, either "J" or an inverted "P." LIMBS WRAPPED IN TIN FOIL.

The body was carefully packed. The limbs were wrapped in tin foil, presumably for sea transportation, as indicated in a letter of the Admiral's nearest friend, and a pallbearer of his funeral, Colonel Blackden, who said:

"His body was put in a leaden coffin so that in case the United States, which he had so essentially served, should claim the remains, they might be more easily removed."

Finding that all the internal organs were singularly well-preserved, the doctors made an autopsy which showed distinct proof of the disease of which the Admiral is known to have died. The identification was pronounced complete in every particular.

WILL BE CAREFULLY CARED FOR.

Care has been taken to keep the body in its present state of preservation. It will be placed in a handsome casket and deposited in the receiving vault of the American Church on the avenue de l'Alma until the Ambassador can learn the opinion of the Government concerning the most appropriate means of transporting it to the United States, and giving a fitting sepulchre to the body of the illustrious sailor whose place of burial had so long remained a

There is genuine satisfaction among the officials at Washington that the untiring efforts of Ambassador Porter have been crowned with success. Officials here followed his reports on so popular? There must be a tiring from his post. It is probable that a recommendation will be made to Congress at its next session looking to his reimbursement. The remains of John Paul Jones are to be brought to Washington City and interred in the National Cemetery at Arlington, and it is likely that the transfer will be made the occasion of an interesting demonstration.

JOHN S. LONG.

Dr. S. Weir. Mitchell, the Great Neurologist, Warns Americans Who Neglect Their Nerves.

"In busy centers the number of deaths due to nervous causes has increased twenty per cent in forty years. Onefourth of the deaths in cities to-day are from nervous diseases."-Dr. S. Weig. Mitchell.

The clean, rich nerve-force that was behind the health and happiness of thousands upon thousands is literally burning itself up like the dry wick of an empty lamp. It is the "Strenuous Life," with a vengeance.

Can men who go to their work in the morning tired and with lax spirits give to their own affairs the electric touch of confidence and power upon which success depends?

Can mothers worn out and nervous, plodding dully or ill-tempered through the routine of homekeeping, bring into the family life that precious spirit of hopefulness and happiness without which the word "home" seems a mockery?

When you feel exhausted—when you grow tired sooner than you should-when you lose patience with the irritating cares of daily lifewhen you feel discouraged-when you feel that your hopes and ambitions are not as high as they used to be-when you spend a sleepless nightwhen you get up almost as weary as when you went to bed-when you are worried. These are all signs that your nerve forces are

burning low.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It make new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success. Without Nerve Force there can be no health at

all-no success-no joy in living.

John S. Long's case is simply one of thousands upon thousands. An average case and an object lesson to the average person.

"For nervousness and stomach troubles Paine's Celery Compound is the medicine. I was almost a physical wreck when I commenced to use Paine's Celery Compound. and now I am as healthy as any man in the world, and I owe it all to Paine's Celery Compound. The first bottle I took helped me wonderfully, and by the time the second was used I was a well man, and I can cheerfully recommend it to any one as being the best medicine I have ever used." -John S. Long, Ballard, Wash.

Try Paine's Celery Compound to-day. It braces you up at once.

Take two days' treatment. See how much bet-

ter you feel. See how much more easily the trials roll away. For over 18 years Paine's Celery Compound

has been the most universally used nerve vitalizer and tonic in the world. Remember this-Paine's Celery Compound is

the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University. All reputable druggists recommend and sell Paine's Celery, Compound.

CAN'T BE SEPARATED

Some Maysville People Have Learned How to Get Rid of Both

Backache and kidney ache are twin brothers. You can't separate them.

And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health. Doan's Kidney Pills make strong, healthy

kidneys. Mrs. J. B. Gibson, of 22 East Fourth street,

Maysville, Ky., says: "The prompt and thorough action of Doan's Kidney Pills should recommend them to every

one suffering from backache or kidney troubles I have known the value of this remedy for several years. Its use in my case proved to me that it is a reliable kidney cure and cannot be excelled for backache or weaknesses of the kidneys. I have recommended Doan's Kidney Pills before and I should advise every sufferer to get a supply at J. Jas. Wood & Son's Drugstore and Forsale by all dealers. Price 50 cents a box.

Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name-Doan's-and take no
